Some Passionate Verse.

This same letter opens with sixteen

lines of verse although it was written

"Thou art the goddess of my dreams, the empress of my schemes;

each night reproved I find me soothed; my dreams realties, but removed. Yet

humbly I just worship there, cares-sing golden, lovely hair."

The defense today filed an amended unswer in which Mrs. Inman asks

a divorce, a settlement of \$250,000, and seeks to have a New York property

settlement agreement declared invalid.

Mrs. Beatrice Cooper, the former
Inman cook, testified that once when
she arrived at the apartment she found

Mrs. Inman with a broken nose and in a state of intoxication. Inman was in another room, she said. She testi-

fled that Mrs. Inman started after Inman with a glass and that she man-aged to slash he face, but that she

had prevented her mistress from car-rying out a threat to "get him."

Raypaud's disease is a disorder of the nerves which control the small blood vessels of the small arteries and capillaries. It generally affects some end or edge, such as fingers, toes, nose, or ears. When mid the symptoms are those of poor circulation. When more severe it seems akin to chilblains: when most severe, to dry grangrene. There are delicate methods of studying capillaries, by using which we are alowly accumulating information about this group of disorders. SERVING CHICAGO FOR THREE GENERATIONS

for Floor Coverings?

Economical women know that the price paid for an article does not fix its actual worth. If it costs twice as much and lasts twice as long as another, its cost is the same. Should it last three times as long, it is a cheaper article. If it keeps its original beauty or usefulness throughout its life, and the other does not, it is many times better. This is the whole science of economical buying.

When you buy a genuine Oriental Rug, you have had an adventure in actual thrift—with proper care, it will retain its original beauty throughout its life—and yours.

We also handle Domestic Carpetings. But whatever you select, you will find the greatest economy here—and the first cost surprisingly low for fine floor coverings.

"Steady Nerves"

CHICAGO

That's Reason for Big Tareyton Sales Jump

JUST TAKE A LOOK at these pic-tures! Can you imagine a set of jumpy nerves on jobs like these?

Suppose you directed a fire stream in the midst of crumbling walls . . . or sat through long watches at a ship radio . . . or handled dangerous chemicals all

Wouldn't you make sure your nerves were the steadiest set on earth?

People like this watch their smoking. "We stick to Tareytons" they told investigators. "Smoke no other kind ... And we find our nerves are always steady, though we smoke a lot!"

HIGH PRESSURE FOR WOMEN, TOO! Han-

dling delicate mixtures of dangerous chemicals is no job for jangled nerves. "My work in the laboratory," said Miss Mimosa Fejos to interviewer, "is very exacting. That's why I'm particular about the brand of

You can take a tip from these smokers, too. Even if your work is less strenuous ... you'll enjoy your smoking more when you know jangled nerves aren't waiting at the end of a heavy day.

So try the recipe these smokers recommend for steady nerves.

Switch to Tareytons . . . smoke them exclusively ... Smoke all you want ... but smoke only this brand ... Do that for a week . . . for just seven days . . .

Then check up on the way you feel. The shape your nerves are in when evening comes. See if you, too, don't feel better. Isn't that fair?

There are just a few important do's and don'ts! First, don't use more than one scent! Let your bath salts and powder, your face powder, your sachet and perfume be of all one fragrance. Always use an atomizer instead of daubing the liquid from the bottle. And, here's a hint... many clever women slip a bit of perfumed cotton in the hem of their skirts, their collars and cuffs and the lining of their hats. The use of perfume in this way, truly becomes an art.

GENERAL ELECTRIC PRESENTS the first ALL-STEEL REFRIGERATOR

OPEN dil O P. M.

GENERAL & ELECTRIC

ALL-STEEL REFRIGERATOR

NOTHER chapter has been added to A the achievements of the engineers and scientists of the General Electric Research Laboratories. The same group of men who perfected the hermetically sealed mechanism of the General Electric Refrigerator, have now designed and built the first all-steel refrigerator cabinet.

This achievement marks the greatest improvement made during the past 30 years, in the design and construction of refrigerator cabinets. It means that new and far greatervalue has been built into the already unrivaled General Electric Refrigerator.

After the engineers of General Electric had perfected this all-steel refrigerator, they had to build the giant presses which were to cut the steel and bend it into

shape; and electric welders to fuse together the folded forms at a temperature of 4500 degrees.

Millions spent for new machinery

To manufacture this new all-steel refrigerator General Electric has invested several millions of dollars in new machinery. But it has achieved its purpose. Its aim was to build the best refrigerator ever produced and offer it to the small families of America at a price within their reach.

No refrigerator has been built in such quantities or by such efficient and economical methods. Mass production has cut costs and made possible the very low price-\$215 at the factory.

General Electric has now made scientific refrigeration, which is vital to the health of the nation, possible for every home. Only a small down payment is required. The balance may be paid in easy installments—just a few dollars a month.

The only way really to appreciate the outstanding quality, the beauty, the great value of this new General Electric allsteel refrigerator is to see it. Come in today. It is now on display.

Listen in on the General Electric Hour, March 23rd, sponsored by the General Electric Refrigerator. This program is broad from 8 to 9 P. M. Central Standard Time over N. B. C. network of forty-two stations including WLS, Chicago

NO INTEREST—NO TAXES—NO CARRYING CHARGES OF ANY KIND DURING THE ENTIRE LIFE OF CONTRACT

We did not intend to offer this property for several months, but from the many inquiries received this week it is evident that there are hundreds who were not able to get to the property last Sunday, and there are others who did get there but could not wait until they were properly taken care of. A larger and better equipped force of salesmen will be on hand next Sunday to see that everyone gets the proper information about the property. This sale will start promptly at 8 o'clock Sunday morning. Come out early and get a choice location.

HOW TO

Drive out South Western Avenue direct to property office at 100th Street and Western Avenue, or take a GET THERE: taxi from any part of Chicago. We will pay the driver. Or phone us for a car to take you and your family to see this property, as our guests-no obligation.

ROME, March 21.—One of the unusual election tactics differing radically from those employed in democratic countries where rival parties contend or power were aired in Italy yesterlay when the government, which is aking for the approval of its unoposed list of four hundred hand picked leputies at Sunday's plebiscite, published economic statistics for February enerthity.

The statistics show that conditions for February were much less favorable than in preceding months. The intropidity in the publishing of them was taken here to indicate the government's confidence in the election results. There were also blocks of anti-assist pamphlets being circulated. According to the statistics, birth sites had fallen off, unemployment had neavily increased, and the cost of living had jumped.

ROME, March 21.—With many provincial bishops and the clergy urging their flocks to vote in favor of the government's unopposed list of 400 candidates for the corporative chamber, the outstanding fact is that the Italian plebiscite election has fused the interests of the church and state.

This phase of the campaign is especially emphasized by the fact that only a year ago the church and state were at swords' points over Mussolini's disbandment of the Catholic Boy Scouts.

Since he got that Kroydon Set

he's been winning tournaments

THE DIFFERENCE between good players and champions is Loften a matter of clubs. Winning golf requires accuracy, not merely with one or two clubs, but with ALL. Mismated clubs are reasons why lots of men turn in scores many strokes above their real ability. A Kroydon Matched Set will help lower your score because every club feels and swings alike."

Only with Kroydon Matched Clubs is PERFECT BALANCE Certain

Every club in a Kroydon matched set is individually balanced and checked against other clubs in that set. This is important, because many so-called "matched clubs" are only roughly balanced on a straightedge or by trying their "feel" in the hands.

The only set that STAYS MATCHED Ordinary irons invariably dent and nick. Dents are removed by filing, but this cuts away metal, and destroys balance. Irons made of soft steel also bend at the neck,

which changes their loft.

Kroydon Irons of hardened steel are dent-proof and do not bend. They are the only matched irons that remain in perfect balance.

Kroydon Sets are REGISTERED

An index is kept showing specifications for every club in a Kroydon Matched Set. A serial number is stamped on the clubs, and players may order duplicates or additional clubs by means of this number.

Same balance as your PET CLUB

Willy Krydon

A complete set "made to measure" and duplicating the feel of your best club may be secured by having this club forwarded to the Kroydon plant. No extra charge.

RUST-PROOF (and non-tarnishing)

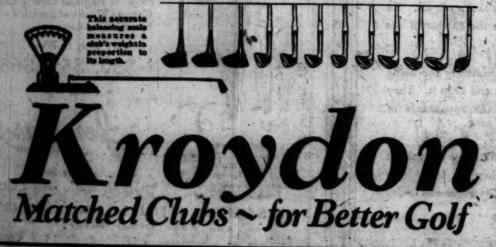

These irons are plated with a heavy layer of hromium. They not only remain like new, out are much harder than stainless steel clubs and have nick-proof, dent-proof soles.

Twelve piece Super-Matched Set consisting of three "Imperial" wood clubs, and nine irons with new Hy-Power steel shafts, \$153.00.

Other sets of five, six, eight, or nine Irons \$48.00 to \$108.00. Sets of three Matched Woods \$25.50 to \$45.00.

F YOU have the responsibility of looking after the I family car, there are some things you ought to know about motor oil. Things which nobody has cared to talk about before.

Oil must meet four requirements, engineers say, if lubrication is to be both complete and thorough. Motor oil must provide-

> essentials of complete and the proper lubrication

- 1. LOW CARBON CONTENT
- 2. NON-FOULING CARBON
- 3. IDEAL BODY AT ALL OPERATING TEMPERATURES
- 4. LOW POUR POINT

Thousands of automobile owners have found that there is one oil-Shell Motor Oil-which has all four of these characteristics.

Many oils, otherwise good lubricants, produce excessive carbon of a hard and flinty nature. But Shell Motor Oil forms little carbon, 20 to 33 per cent less than most oils.

And the little carbon which it forms is soft, fluffy and non-fouling. Instead of accumulating inside a motor, this carbon blows out with the exhaust gases.

Shell Motor Oil has ideal body at operating temperatures. That means it has courage and

bave a car, but no busband ...

The business woman who drives a car should be particularly concerned with

the economy of operation and the continuous trouble-free service which the use of Shell Motor Oil assures.

Remember, Shell is one motor oil which combines all the essentials of complete and thorough lubrication.

Women like 400 "Extra Dry" Shell Gasoline because it starts quickly and delivers the extra ounces of power when needed. Ought to cost more, but

a fighting heart . . . it won't break down and cause trouble through long, hard service. You may never need to drive sixty miles an hour, but it's good to know you can with complete safety to your engine.

And Shell Motor Oil has a low pour point to make starting easy in cold weather.

Regular users of Shell Motor Oil tell of marked reduction in carbon removal jobs. They report amazing trouble-free performance. Naturally, they enjoy lowered operating costs and have fewer repair bills.

The quality which makes such satisfactory performance possible, is due to two things: the selection of the crude petroleum which forms the base of Shell Motor Oil, and the refining process which prepares that crude for use.

Shell's vast oil fields produce a great quantity of crude oil from which Shell selects its lubricating stock. And the refining process developed and used exclusively by Shell, prepares this crude in a very special way. Then Shell Motor Oil passes 259 tests before it is sealed for shipment from the refinery.

STOP AT THE SIGN OF THE SHELL

You'll find courteous attendants who will be glad to drain the crankcase of your car and refill with the right amount and correct grade of Shell Motor Oil.

The familiar yellow and red service stations are convenient everywhere.

A warm greeting ... a friendly word and smile ... an instant look of recognition . . . these have never-lowered the dignity of an individual or an institution.

And our 67-year record has been made possible through close adherence to this principle. Stated briefly and plainly—we shall always be human in our dealings with the public.

Thus-there are no closed doors within this institution. There are no executives here too busy to discuss your business and personal problems with you. Our officers seated in plain view of all who come here—are available without ceremony to all who want their advice and counsel.

Many thousands who make this their banking home bear witness to the great public preference for this human, friendly banking relationship.

Open Interest Decreases,

There is marked uncertainty regarding the outcome of the winter wheat crop, and while there are numerous reports of good conditions, many operators are apprehensive of damage, and the tendency at the moment is to keep close to shore. The open interest at the close on Wednesday in all wheat futures here was 148,686,000 bu, a decrease of 629,000 bu from the previous day, and the first reduction in several weeks.

Wheat market appears to be at a dead center with little in the routine news that attracts attention, and with a noticeable lack of speculative and cash business. The following information has been furnished by Mr. Beatty B. Williams, President of the Corporation:

The Cooper-Bessemer Corporation (an Ohio corporation) will represent a combination of The C. & G. Cooper Company (an Ohio corporation) and The Bessemer Gas Engine Company (a Pennsylvania corporation) through recapitalization and change of name of the former and acquisition by it of the assets and business of the latter. The Besof the assets and business of the latter. The Bessemer Gas Engine Company, Grove City, Pennsylvania, manufactures two cycle gas engines of from 30 to 200 horsepower and direct driven compressor units. During the past five years it has established itself as an outstanding producer of marine Diesel engines ranging from 50 to 1500 horsepower and is now actively engaged in the development and sale of stationary Diesel engines for industrial and utility uses. The C. & G. Cooper Company, Mount Vernon, Ohio, manufactures four cycle gas engines and compressors ranging in size cycle gas engines and compressors ranging in size from 50 to 1500 horsepower and through its specialization in large four cycle engines has been a leader in furnishing the power requirements for the transmission of natural gas through pipe lines. The combination of these two organizations will result in a corporation serving complementary fields and ranking as one of the leading manufacturers in the United States of gas engines, Diesel oil engines and compressors.

For the four years ended December 31, 1928, the net earnings of the properties presently to be owned by The Cooper-Bessemer Corporation, after giving effect to the adjustment of certain items of special compensation in The Bessemer Gas Engine Company, and adjusting Federal taxes to the present rates, as computed by Arthur Andersen & Co., (including company estimate for the last two months of 1928 for The Bessemer Gas Engine Company), have averaged \$1,014,443 annually, equivalent to 3.38 times the dividend requirements on the Cumulative Preferred Stock and to \$3.57 per on the Cumulative Preferred Stock and to \$3.57 per share on the Common Stock to be presently out-standing. In spite of the disturbed conditions obtaining in the oil and gas industries throughout the early part of 1928, the earnings for the year 1928 are equivalent to over three times the pre-ferred dividend requirements, and \$3.06 per share

The pro forma consolidated balance sheet of The Cooper-Bessemer Corporation and Subsidiaries as prepared by Arthur Andersen & Co., based upon the consolidated balance sheets of The C. & G. Cooper Company and Subsidiary as of December 31, 1928, and of The Bessemer Gas Engine Company and Subsidiary as of October 31, 1928, adjusted to give effect to the present financing and transactions incidental thereto, shows net current transactions incidental thereto, shows net current assets of \$4,399,868, equivalent to \$44.00 per share of Cumulative Preferred Stock to be outstanding. Based upon the book figures, the net tangible assets, after deducting all liabilities and reserves, amount to \$7,783,344, equivalent to \$77.83 per share of Cumulative Preferred Stock. The policy of the combined companies has been conservative in connection with depreciation charges and write-offs, and the real value of the fixed assets is believed to be substantially in average of the values. believed to be substantially in excess of the values at which they are carried on the books.

The Articles of Incorporation, as amended, will contain suitable provisions restricting the creation or assumption of any mortgage or long term indebtedness, or the issuance of prior securities, and will also provide against the payment of dividends on the Common Stock (other than stock dividends) unless after resemble of such dividends. unless, after payment of such dividends, consolidated earned surplus shall amount to at least \$1,000,000 and consolidated net current assets shall equal \$40 per share of Cumulative Preferred Stock then outstanding.

The Management of The Cooper-Bessemer Corporation will consist of the individuals now in active charge who have been largely responsible for the success of the combined companies.

We offer these units, if, as and when received by us, subject to the approval by counsel of all legal proceedings. It is expected that delivery in the first instance will be made on or about April 8, 1929, in the form of Allotment Certificates for the Cumulative Preferred Stock and Warrants and temporary certificates for the Common Stock.

THE MEDBURY FORT MURDER By GEORGE LIMNELLIUS

INSTALLMENT XVII. THE INQUIRY BEGINS.

THE INQUIRY BEGINS.

This was Sergt. Nuthall's first acquaintance with a murder case.

He must not make any silly blunder. Hitherto he had scrupulously stied his eyes from the object which lay upon the bed; now he approached any and looked. It was not a pleasant sight. Sergt. Nuthall had seen some sty corpses in the war, but the appearance of the murdered officer produced massa he had some difficulty in overcoming.

The body, clad in bright blue silk pajamas, lay on its right side, the right munder the head, which had sagged forward so that the face was partially seen. Blood had flowed on to the pillow and sheets from a terrible wound the back of the neck. Some sharp instrument had been forced between of the lower vertebras of the neck, completely severing the spinal column deuting the main artery. The knees were half drawn up to the fallen jaw, the left hand was tightly clenched. Sergt. Nuthall turned his back on the land its gruesome burden and swept his eyes once more over the room. Had he missed anything? Some vital clew, perhaps, staring him in the set. Ha! What was that? He pounced on a small object lying close to the tothe bed. It was the broken half of a small imitation mother-o'-pearl into. Dropped by the murderer in his hasty flight from the scene of his me? Sergt. THEATER

ISTENING again to the good music in "The Gondollers" is a pleasant and a stimulating ning late in Lent or any other time The performance by the visiting English singers in the Erlanger is as good as any save one I have heard of this operetta; and the exception happens to be that which, as a kid, I heard in the London Savoy by the singing-actors for whom Gilbert and Sullivan wrote. These gifted men didn't hit so shigh with "The Gondollers," although they aimed to do so. Gilbert, to get out of his plot-tangle, had recourse to the device he had already used in "Pinafore"—the device he mockingly lifted from "Il Trovatore." Nor did he provide a low-comedy rôle of the first class: Plaza-Toro and his wife simply hang on the outer edge of the plot; and the Grand Inquisitor, although two good songs fall to him, isn't a part wherein a good buffoon may revel.

But Sullivan put some of his best tunes, into this score—rich, warm vital tunes, such as the cachaca, "Take a Pair of Sparkling Eyes," high with "The Gondoliers," although they aimed to do so. Gilbert, to get

Faith Like Aviation, Only Technique New, Preacher Declares

WINNIE WINKLE, THE BREADWINNER: Business Going on as Usual

Faith is comparable to airplane flying, Dr. Phillips E. Osgood stated yesterday at the Garrick theater Lenten services of the Episcopal Church club. "The discovery of flying does not mean a new capacity of the air," Dr. Osgood said. "It means a using of the always existing characteristic of air. So it is with faith. Prophets did not make, but rather found the truth. Jesus stands by the tomb of Lazarus and says: 'I am the resurrection and the life.' His resurrection existed before the cross and Easter The important thing for him and us is not the event, but the resurrecting

power that made the event.

"By the resurrection is not meant resuscitation, but rather the ability always to pull life up out of the mire and place its feet on solid rock. It is the ability of victorious relief from all circumstances and all imprisoning and overpowering death of the soul.
All self-forgetting, all loving kindness, all morality, all true faith is resurred tion. It is the birth into eternal youth.

"Looking around" is a pastime we heartily recommend to both boy and girl. And the work must be conducted in the haunts where men and girls foregather. It is so that you will be more eligible for entry into these circles that we recommend casting off such old shackles as advice that belonged to another day entirely—such as, waiting for the man to make all the advances, keeping up formal barriers to accent your great worthiness, and so on. After listening to the general run of programs last evening, I feel like essaying another missionary attempt to curtail the amount of advertising in some programs. It may be taken for granted that the radio listeners are not over sensitive in the matter of advertising, but there is a limit at which the advertiser should instinctively stop. There is no objection to an honest advertisement and when it is artistically handled, we in due time learn to admire the name [and hence the]

When You Need It Probably nine out of ten families need extra

cash, at times. And usually, the need is urgent. It may be for sickness, an operation, or an accident. Perhaps, for perfectly good reasons, you haven't the ready money for bills that must be paid. When you need additional funds, come to us. For more than half a century, the Household Finance Corporation has served families without regular banking connections.

Here you may borrow what you need, secure the cash usually the same day, and repay us at your convenience.

Borrow at New Rate Nearly 1/3 Lower

Loans payable in twenty equal monthly payments cost as follows: 50 average monthly cost 66c \$100 average monthly cost \$1.32 \$200 average monthly cost \$2.63 \$300 average monthly cost \$3.94

You get the entire amount you borrow-there are no fees or deductions. Loans may be paid in full at any time. Interest is charged ONLY on unpaid balance, for actual time you keep the money.

How We Make Loans We loan up to \$300 on household goods, to men and their wives for domestic use. We do not require outside signers—signature of husband and wife all that is necessary. Employers relatives, friends or tradespeople are not notified.

Many people who are really fair minded, who would always acknowledge a mistake to another grown person, falter at the prospect of apologisting to a child. They feel, I suppose, that they will lose ground by admitting injustice to the child, or they think it is beneath their dignity. In this I think they are mistaken. A child—unlike the little girl in the story who simply adored her mother—is almost always conscious of injustice. This feeling may not always be expressed, but it is there.

If we've done something that is not fair, it is only part of justice to admit to say we're sorry. HERE IT IS!! THE JOB YOU'VE BEEN LOOKING FOR. I want men-fifty of them, who MUST HAVE MONEY

RIGHT AWAY. Men between the ages of thirty and fifty-five—not floaters—but serious minded men with an object in life. Men who don't want promises, can't afford to wait, and are willing to take off their coats—so to work and make big money. There are "no strings" to my offer The jobs are here waiting for you if you want them.

I Can Make for You \$140 a Week and All Expenses in a high grade business with unlimited opportunity. Our product is the kind that is easy to sell. It is not sold by drudging, slaving, working days and nights. It is a product the people wouldn't even get enough of for the next ten years. I want to prove this to you and I want to show you that by our plan of compensation you can make more money than you have ever dreamed of making.

YOU CAN MAKE \$100,000 IN FOUR YEARS in addition to a comfortable living. Experience does not count: only good, hard work. If you give me that, you can make many times \$140 a week-you can become financially independent. This is not bunk, as I can prove to you in one interview.

Call at My Office Friday Evening at 8 o'Clock. SUITE 201, 168 N. MICHIGAN SONAL INTERVIEW. NO INTERVIEW GRANTED ANY OTHER TIME.

LOANS

It is our observation that many home owners who are desirous of making second mortgage loans do not proceed as carefully in arranging for their loan as they would if a suit of clothes were involved. Second mortgage loans are something like Heins 57 Varieties of Pickles. They are all pickles or second mortgages at the case may be, but there is a wide variation in the terms under which the loans are made, covering margin of security, cost, method of repayment, and last but not least, the multitude of methods under which the ultimate cost is levied.

Morris Plan Bank a very large fund advanced by Mr. Julius Rosenwald is being used to make second mortgage loans and these loans are made on one basis only. One to three years is the time allowed. A minimum monthly payment of 2% of the principal sum is required. The total of first and second mortgages must not exceed 75% of a fair value of the property involved. The interest is 6% payable monthly and the commission is 3% % for one year. 6% % for two years and 0% for three years. These commissions are flat and do not vary whether the borrower chooses to repay in installments amounting to 2% of the principal, or if he chooses to make equal installments throughout the life of the loan.

Thousands and thousands of dollars have already been saved to Chicago home owners through the facilities of our second mortgage fund. So favorably has our plan been received that we have been obliged to look for larger quarters in which to do business. We are now located on the fourth floor of the Morris Plan Bank Building at 21 N. La Salle-st. Shortly we will announce our removal to the new building at the southwest comer of Madison and Clark-sts. It has never been the policy of the Chicago Morris Plan Bank nor the Trustees of the Rosenwald Loan Fund to unduly urge anybody whether home owner or not, to borrow money needlessly. It has been our policy on the other hand to urge those who do require money for useful purposes to think twice as they shop around in order that they may obtain the amount of money which they desire on terms which are most favorable to the person or family involved.
